

Forward to Logan County Cemeteries

I am Allen E. Konrad, born in 1939 in Pomona View Township of LaMoure County, North Dakota. My career for 37 years was that of a pastor of the Lutheran Church-Missouri Synod, of which 20 years was spent as a missionary in Africa. After retirement, I wanted to offer some kind of service in the area of genealogical research which would assist those hunting for information from the area in which I grew up. Having family in all four counties, in the summer of 2007, I began gathering information on the cemeteries in the North Dakota counties of Dickey, LaMoure, Logan and McIntosh. My goal was to try and identify as many cemeteries as possible, take a picture of each cemetery in its present condition and record the location by global positioning satellite (GPS), the new Rural 911 road identification system, and the county plat method of Section (Sec)-Township (Twp)-Range (R). In my research that follows, you will notice an asterisk (*) after the name of each cemetery that I saw and photographed.

What follows is a list of cemeteries that I have identified so far. The county information is set up with an alphabetical listing of all townships. Where a township has more than one identified cemetery, the cemeteries are identified beginning with Section 1 down through Section 36. Included in the information about the cemetery, if known, will be a source listed which will direct the researcher to a place where names and dates of those buried in that cemetery can be obtained. My lists of burials give all names in family alphabetical order. Some of the sources I used were attempts to walk through a cemetery and record information from gravestones as they stood one beside the next. To discover in my lists how one person might be related to another, you will need to check out the sources which often reveal relationship by who is sharing a gravestone, or who is buried within a family plot. I have also discovered that a person may not actually be buried where the church records indicate. The body may have been buried in a neighboring sister congregation cemetery, or may have actually been buried where indicated but disinterred and relocated to another place years later.

Since I started this project, I have continued changing my ideas as to what information I would like to include. Originally, I had no plan to show who was buried in each cemetery. Eventually, I decided to compile a listing of burials in as many cemeteries as I could find information on. At first, I put all names together without indicating which source revealed which particular burials. Later, I decided to give a specific color to each source so the researcher can tell by the color of the name and data where the information came from. I wish I had done that right from the beginning. One problem I came across is that the more sources one uses the more chance there is of data conflict in how names are spelled and birth and death date variations. Sometimes, information on a gravestone is so weathered it is difficult to know what the number or letter is. It is not intended that this project becomes the final word, but gives you the opportunity to search electronically for names of deceased throughout the county.

I have noted **Photo Available** to indicate that I have on file a picture of that specific cemetery. The code I have used includes a two digit identifier of the county, the name of the township and then the name of the cemetery or burial site.

In 2010, I finished another cemetery project of photographing the tombstones in cemeteries within a certain distance from Fredonia and Kulm, the two towns I once lived in. After reducing

the resolution of the pictures, I up-loaded them to the internet site. If this is of interest to you, check out www.northdakotagravestones.org for photos pertaining to Dickey, LaMoure, Logan, and McIntosh Counties.

If you are aware of any burial site not mentioned in this document, then I would appreciate it if you would contact me with the details so that I can add it to my growing list of cemeteries. As of the beginning of 2011, I can be contacted by mail at P.O. Box 157 Rowley, IA 52329. You can also reach me by e-mail at <onamission@lbt.org>

- History of Cemetery: *Fredonia, ND – Centennial 1904-2004 – Fredonia Will Shine Once More In 2004*, p.54. "The Wolf Cemetery was originally established by Emmanuel's Congregation, but never platted or surveyed until recently. Now it has a cemetery board which is responsible for its maintenance and operation phases. Things are slow moving, but cleanup work is progressing and other factors are being looked at. Help is needed to catch up on what needs to be done. Records disclose a number of burials are from Emmanuel's congregation and others. Some graves do not have markers. For some there are no records possibly because of neglect or having just plain forgotten. The cemetery board needs help to find records about the graves according to the information received by Raymond Burkle. This cemetery is still maintained by several of the family members with relatives buried there."

A combined Lutheran Cemetery with **Saint Johannes Lutheran Cemetery** and **Saint John's Lutheran Cemetery**. "This cemetery is located three miles north of Fredonia on the east side of Highway 56. The cemetery is surrounded with a white plastic chain fence. It has a sign and is well maintained. The local cemetery association was formed in January of 1997. It was set up so that the cemetery would be taken care of should the church ever dissolve. The upkeep of the cemetery is paid with the interest generated from the funds donated to the cemetery. There are three directors who are elected at the annual meeting which is held together with Martin Luther Church's annual meeting. The present directors are Joan Hehr, Marie Vogel, and Betty Hehr. Steve Weispfenning is the cemetery sexton."

- Photos of cemetery grave markers were taken by Allen E. Konrad in July, 2010 and submitted to the internet site: <NorthDakotaGraveStones.org>. It appears that the south end of the cemetery was reserved mostly for the burial of children. The information on the grave markers photographed is being collated with the cemetery list in *Fredonia, ND - Centennial 1904-2004 - Fredonia Will Shine Once More In 2004*, p.48-50; *Cemeteries of Logan County, North Dakota*, compiled by George L.
