1	Baier	<i>(same)</i>	2

This file shows the results of a survey of the St. Petersburg records in the birth and marriage records/registers for the Glueckstal colonies. Variant spellings are given for only those records for the periods available on the FamilySearch site. For Lutheran records, this includes 1883-1885 for Lutheran records with some years missing. Reformed records are also included, and run up to 1900, also with some years missing.

This files excludes variant spellings found in:

- death records/registers in the St. Petersburg records
- census records
- revision lists, including those reported in Stumpp's book
- birth and marriage records not part in the Glueckstal district

In determining what constitutes a variant spelling, it is sometimes difficult to distinguish a variant from an entirely different name. Possibly some variants are shown incorrectly in this file as different names but are variants of other "standard" names in the list. Some names could not be resolved as being a variant, or an entirely different name.
